

A Data sources and analytical roles

Acute GBS blood

Blood cohort comparison

GSE211225 · whole blood

GSE31014 · leukocytes

PRJNA1293757 · PBMC

GBS CSF

Published proteomic evidence

PXD002911 · proteo-peptidomics

Complement proteomics

TMT and Olink studies

CIDP peripheral nerve

Expression by donor and cell

GSE285983 · sural nerve

GSE107574 · published reference

CIDP versus CIAP

CIDP genetics

Published genetic evidence

GWAS in women

MR and colocalization

Candidate gene expression

B Complementary analyses

Consistency

Recurrent
blood effects

CSF proteins

Independent
CSF studies

Localization

Cell state and
donor level

Candidate genes

Genetic
evidence

CXCL8 and
complement
gene modules

Inflammation
and structural
proteolysis

Endothelial, immune
and Schwann cell
expression

Cellular expression
of candidate
genes
